

POINTS OF INTEREST

Originally built in 1720 of brick, King George III then stated he preferred stone, necessitating rapid and expensive cladding of **Kingston House** to maintain patronage!

The Elizabethan Manor (private) was built in 1590. Augusta Way, Hardy's image for Tess, lived here when it was tenements. Her daughter was later chosen, by Hardy, to play Tess.

Hardy was born and lived in **Hardy's Cottage** until he was 34. It provided the inspiration for the homes of the Dewys of *Under the Greenwood Tree* and the Yeobrights of *Return of the Native*.

This section of **Heathland** was the basis for Hardy's 'Egdon Heath'.

Hardy was first schooled in the **Old Schoolhouse** (private). He later made it the home of *Under the Greenwood Tree*'s beautiful but fickle Fancy Day.

St Michael's Church is where Hardy's parents met, his father played in the church band and where they, alongside his heart, are now all buried near the yew tree.

KINGSTON MAURWARD TO HARDY'S COTTAGE 'PARK & STRIDE'

The route via the Visitor Centre is 1.8 miles, with an optional return via Lower Bockhampton (2.7 miles). All admissions to Hardy's Cottage are through the Visitor Centre.

STARTING POINT

Kingston Maurward car park, Stinsford

DISTANCE

approximately
1.8 miles

This walk starts from Kingston Maurward Animal Park and Gardens car park, Stinsford (DT2 8PY)

The 10-acre gardens, partly developed in the 1700s with Capability Brown style parkland, were remodelled in 1918-20 by Cecil and Dorothy Hanbury in an Arts and Crafts 'rooms' style.

The Hardys were tenants of the Kingston Maurward Estate until 1912. Hardy's father was a building contractor for the estate, and Hardy was first educated in the estate school. He later used Kingston Maurward as inspiration and setting for his first novel, *Desperate Remedies*, a dramatic, twisting plot of double marriages, lost relatives and murder!

The estate is now home to Kingston Maurward College, one of only two remaining independent specialist land-based colleges in the South West. Over 3000 live-in and day students study agriculture, animal sciences, equine studies, floristry, construction and other rural and allied subjects across the 750 acre estate.
