## ROAM 639 Trail

Starting from the Devil's Punch Bowl car park

**A more demanding walk including some steep gradients and uneven surfaces – 6.39 miles (10.28 km).**

This trail has been created as a permanent reminder to those of us who are able to enjoy physical exercise of how fortunate we are. The trail name ROAM 639 is derived from the initials of Richard Overall, a local young man who died from muscular dystrophy and the shared initials of 2 young brothers, Alfie and Arthur Marchant whose lives are also affected by this condition. 639 represents the number of muscles in the human body and also indicates the distance of the loop – 6.39 miles

### 'a trail with a purpose'

Ideal routes for dog walkers. Dogs allowed off lead and under close control all year round.

## Miss James' Walk

Starting from the Miss James' car park

**A gentle walk with some uneven surfaces and moderate gradients – 1.9 miles (3 km).**

Take a walk and find out who Miss James was. This woodland trail uses the new Miss James' footbridge over the A3 and the cool shade of the woodland is ideal in the warm summer sun.

'a keen supporter of the fledgling National Trust, she generously gave us land'

## Golden Valley

Starting from the Tifford Road car park

**A more demanding walk with some uneven surfaces and steep gradients – 2 miles (3.2 km).**

In the autumn it is easy to see where this valley gets its name from. The golden leaves of the beeches, sycamores and oaks are beautifully contrasted by the dark green Scott's pine trees. 'Insects and fungi live on the decaying woodland floor'

These walks are through rare ground-nesting bird habitat. Please keep dogs on a short lead during the nesting season (March–September).

## Sailor's Stroll

Starting from the Devil's Punch Bowl car park

**An easy walk with only gentle gradients and reasonably flat surfaces – 1 mile (1.6 km).**

On this gentle walk to the summit at Gibbet Hill, with its fantastic views, you will learn about the barbarous murder of the unknown sailor. You will need to return to the café along the same route or if you are feeling energetic then why not continue your walk on the Hidden Hindhead Trail.

'once dead, their bodies were secured in iron cages and left to the elements'

## Higcombe Hike

Starting from the Devil's Punch Bowl car park

**A more demanding walk including some steep gradients and uneven surfaces – 2.8 miles (4.5 km).**

Take a walk through ancient woodland and open heath to find out how the Punch Bowl was formed. On the way learn about the people who lived in the old 'broom-squires' cottages and how they eked out their living here over the centuries.

'open heathland landscapes provide a very bio-diverse habitat'

## Hidden Hindhead Trail

Starting from the Devil's Punch Bowl car park

**A demanding walk including some steep gradients and uneven surfaces – 3.1 miles (5km).**

This route takes in the Sailors Stroll for the first 800 yards and then leads to the far side of Hindhead Common. You will find a traditionally worked chestnut coppice and learn about the old turnpike road which made this 'the most villainous place in the south of England'.

'a number of rare and endangered species make their home here'
