Tree-mendous Tree Trail

Every tree has something special about it and we've selected some of our favourite and most beautiful trees in the garden for you to get to know a little bit better. There's much to discover on a tree – so get your detective hat on and your magnifying glass if you have one and explore the garden to see which trees you can find.

Tick which trees you find:

Black Walnut	Eucalyptus	Sycamore
Maple	Tulip Tree	Bay
Cork Oak	Paper bark Maple	

Get to know a tree:

Touch the bark - does it feel rough, smooth, damp or dry?

Look up through the branches - what can you see?

Listen to the wind rustling in the leaves and the birds singing. What do you think they are saying?
