Nature chatterbox

Tune in to nature's voice when you print out this chatterbox and follow the instructions below. You might be surprised at how much noise nature can make!

Sky	Sun	Leaves	Grass
Animal	Listen out for three different birds singing in the sky.	Use three words in your nature diary to describe the sound a leaf makes on the ground.	Bugs
Splash	Find some mud or a puddle and see if you can make the squelchiest or splashiest sound with your wellies.	Join nature's band and use two sticks to bang on the ground with, like a drum.	Bark
Water	Animal	Woodland	Tree

When you press your ear to the ground, what can you hear?

Make the noise the sun makes when it wakes up.

What voices do the different trees have? Create some characters and chat in their voices.

Talk in the voice of a frog or a fish. What do they talk about to each other?
