

National Trust Litter Pick at Sea

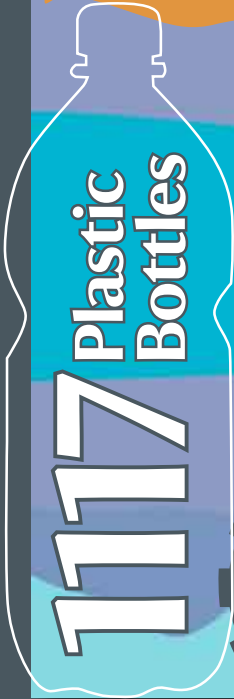

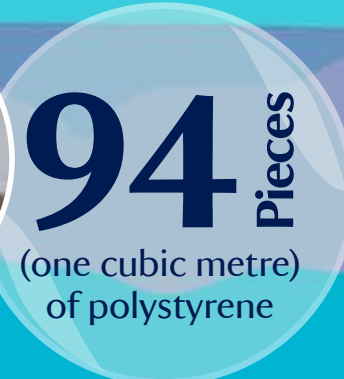

A team of National Trust Rangers and helpful volunteers got their hands dirty to sort out the collection of rubbish gathered from our first major litter picks in 2018.

The team plucked out a surprising range of items that you may not expect to find along our beautiful coastline...

...and here's what they found!

...even some antique rubbish amongst the pile up, a commemorative cigarette lighter from the Barcelona Olympics 1992. WOW!

Countries of origin noted from various branded items included; Germany, France, Norway, USA, Denmark, UK, Ireland, Spain, Portugal, Holland.

Amazing effort from the teams involved and a special thanks to our volunteers for all the weighing and counting.
