Roses of the garden

Key to “Roses of the Garden”

Many of our roses were planted a long time ago and their original labels have long since been lost. Many rose cultivars are very similar and are complex to identify, even for rose experts. Sadly this means there are a number of beautiful roses growing in the garden that we cannot put a name to.

- | | | | |
|----|--|----|--|
| 1 | Madam Isaac Pereire | 31 | Gloire de Dijon |
| 2 | Souvenir de la Malmaison | 32 | François Juranville |
