# Mini Makers' Cloud and Rainbow Decoration

This week we're getting crafty making a simple cloud and rainbow decoration. Once you've completed it why not share it with us @NTSpekeHall?

## Materials:

A piece of A4 white card

A selection of coloured card or ribbon

Biodegradable glitter or cotton wool (optional)

Colouring crayons

Glue stick

Hole puncher

String

1. Draw a simple cloud shape taking up half a piece of A4. Ask an adult to cut it out and hole punch two holes at the top.

2. Decorate your cloud shape. Use your crayons to decorate your cloud with any design or pattern you like. You can also cover your cloud in cotton wool or biodegradable glitter.

3. Whilst you are decorating your cloud, ask an adult to cut some cloud strips of paper or ribbon.

4. Turn your cloud over so that your beautifully decorated side is face down. Glue the bottom of your cloud with the glue stick and stick on your coloured paper or ribbon in any order you like.

5. Now ask your grown up to attach a piece of string through the hole punched holes. **You're finished!**
